June 7, 2010

Dear Colleagues,

To meet the urgent need for trainers at the Assistants to Infancy level, the Training of Trainers Group is planning to launch a Seminar Format/Training of Trainers Programme. There will be four seminars in all, interspersed with training on two full course cycles, starting the summer of 2011.

Taking that starting point into account, some prospective applicants might need to follow a Foundation Course in the summer of 2010 in order to fulfil the Primary diploma requirement. It is, therefore, vital to make the information about the plans for the seminars public without delay.

We are calling on your help in that respect. Could you please circulate this information to anyone that might be interested in this opportunity?

This announcement is also to be found on the Welcome Page of AMI's website. As the plans unfold, we will make the specific details known.

Thanking you in anticipation of your assistance,

Yours sincerely,

Judi Orion
Training of Trainers Group
